### OBJECTIVE

Seeking full-time employment as a full-stack web developer with an emphasis on front-end. I am eager to contribute my skills to a dedicated team, and to create optimal solutions and enjoyable user experiences. I thrive in a team environment, and am passionate about learning and improving.

### WORK EXPERIENCE

#### Full-Stack Web Developer Co-op

##### Ergonomyx | Victoria BC | Sept 2020 – May 2021

- Automated solutions for creating invoice PDFs and shipping labels, saving multiple hours each week
- Designed and implemented various UI features for e-commerce platform
- Implemented responsive layouts to existing pages, improving UX on mobile devices and tablets
- Brought the overall UI/UX of the site to a higher standard by overhauling various layouts and designs, and made the site easier to use in general
- Developed front-end for the entire website of their sister company (Solaires)

#### Junior Web Developer Co-op

##### ACD Systems | Victoria BC | 2019 (8 months)

- Implemented front-end web pages using html, css and twig

### SKILLS

#### Hard Skills

- Javascript
- React (personal projects)
- UI/UX Design
- SQL

#### Soft Skills

- Communication
- Problem Solving
- Eager to learn
- Friendly and easy to work with

### EDUCATION

#### The University of Victoria

##### Bachelors in Software Engineering

Graduated 2021

Victoria, BC
